2 JAN 1924

AIR MINISTRY.

FORM 1090 METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

Kept at Trusthorpe Hall
in the County of Lincoln
by J. N. Woodiwiss

Lat. Long.
Time of Observation 9·0 a.m.
Nearest Railway Station Sutton-on-Sea
Diameter of Funnel of Rain Gauge 8 in.
Height of top of Gauge above Ground 1 ft. 3 in.
" " " " Sea Level 10 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

FORM 1090

AIR MINISTRY.

METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1923.

2361
2527
25 JAN 1924

Kept at Wilsthorpe.
in the County of Lincoln
by Peterborough Waterworks.

Lat. 52° 43" Long. 23° 59" W.
Time of Observation 9. A. M.
Nearest Railway Station Braceboro' Spa.
Diameter of Funnel of Rain Gauge 8 in.
Height of top of Gauge above Ground 3 ft. 10 in.
" " " " Sea Level 55. 26 ft.

Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. An Observer who prefers not to conform to this almost universal rule, should insert the reading at 9 a.m. on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Records taken in Millimetres should be entered on Form 1091.

AIR MINISTRY, METEOROLOGICAL OFFICE.

South Kensington, London, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Navenby Rectory 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
The entries on your rainfall return for June 30th (17) and July 31st (·83) are the totals for the other entries in the months and should be deleted making the totals for June ·17 and July ·83 A comparison of your return with those of surrounding stations suggests that an omission has occurred on October 22 as shown below Wellingore ·32 Navenby Rectory — Carlton le Moorland ·34 If you have no reason to the contrary we would recommend that ·30 inch be adopted, making the total for the month 2·72 inches After the above amendments have been made the total for the year will be 21·36 inches We shall be glad of your comments on these points H. G. Carter 6.7.26.	Returned with thanks 9.7.26. Dear Sirs I am forwarding enclosed form for your inspection I cannot say if the small form sent to you before compares with this but as far as I can find out this is in order I ~~have~~ not any shown in my note book for October 22nd therefore I cannot account for error should there be one Yours faithfully J Thompson Gardener

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 7.

1. The amendments indicated in red ink are adopted........................
2. Necessary corrections made in Monthly Return........................
3. " " " " Weekly (Form 3110)........................

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division ....

2 JAN 1922

Form 1090 **METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.**
(*formerly B.R.O. Form A.1*).

REGISTER OF RAINFALL IN 1921.

Kept at New Leake (Lade Bank)
in the County of Lincoln
by J. Haley Johnson, M. Inst. C.E., M.C.I. F.R. Met. Soc.

Lat. 53·4' Long 0·4' E.
Time of Observation 9 a.m.
Nearest Railway Station Old Leake.
Diameter of Funnel of Rain Gauge 8 in.
Height of top of Gauge above Ground 1 ft. 0 in.
" " " " ~~Sea Level~~ O.D. 10 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to The Superintendent, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY, METEOROLOGICAL OFFICE.

South Kensington London, S.W. 7.

QUERY FORM.

On examination of the return of observations made at New Leake Lade Bank 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.

A comparison of your 1925 rainfall return with those of neighbouring stations suggests that an omission has occurred on January 14th as shown below

Boston	·34 inch
New Leake	–
Carrington Grange	·45 "

If you have no reason to the contrary we would recommend that a value of ·40 inch be adopted making a total for the month of 1·25 and the year 18·95 inches. We should be glad of your comments on this point.

The number of rain days and wet days is very low and suggests that the gauge is not visited daily. We should be glad if you could arrange to have this done in future.

H. G. Carter
6.7.26.

REPLY.

Apologies for the omission. The record should be ·48 on the date mentioned.

I have taken the matter up, very strongly, with the person responsible and given instructions for a daily visit to the gauge, if this has not been done in the past, according to instructions.

Healey Johnson.
10/7/26.

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

FORM A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 192.........

Kept at North Willingham House
near Market Rasen
in the County of Lincoln
by J. H. Slanyath for Mrs Ch. Wright

Lat.............. Long..............
Time of Observation 9. am
Nearest Railway Station Market Rasen
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 3 ft. ...... in.
" " " " Sea Level .... ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following. .0

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY, METEOROLOGICAL OFFICE.

South Kensington, London, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Revesby Reservoir 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
A comparison of your 1925 rainfall return with those of neighbouring stations suggests that an omission has occurred on October 19 as shown below. East Kirby House ·43 inch Revesby Reservoir – Hagworthingham ·55 " If you have no reason to the contrary we would recommend that a value of ·50 inch be adopted making the total for the month 2·53 and the year 23·51 ins We should be glad of your comments on this point. H. G. Carter 6.7.26.	There is a possibility of course of the Reservoir Attendant omitting to take the reading in occasion, but the one in question is a very careful man & I have no reason to doubt his returns. I beg to point out that Hagworthingham lies Due N of the Resr & E Kirkby due E., both being over the other side of the Hills & in a different watershed. Variations of this kind are likely to occur & have occurred before, perhaps in a less marked degree. I am prepared to leave the matter entirely with you. Henry Tyson

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 7.

1. The amendments indicated in red ink are adopted ✓
2. Necessary corrections made in Monthly Return
3. " " " " Weekly (Form 3110)

Heavy rain also to south & west.

Adopt ·50

H.G.C.
8.7.26.

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division

2331

Kept at Kesteven Mental Hospital
in the County of Lincolnshire
Diameter of Funnel of Gauge 5 in.
Height of top of Gauge above Ground 1 ft. — in.
„ Ground „ Sea Level 100 ft.

Observers are requested to read the instructions printed overleaf before filling in this form.

Every Observer should fill in section C overleaf.

THE MORNING MEASUREMENT IS CREDITED TO THE PREVIOUS DAY.

An observer who does not conform to this rule should insert the reading made on January 1st of the following year in the space on the right of this paragraph.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

FORM A. 1. **METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.**

2398

REGISTER OF RAINFALL IN 1923.

28 FEB 1924

Kept at The Vachery SPILSBY
in the County of LINCOLN
by J. Jarvis Rainey

Lat. 53·10 Long. 0·5E
Time of Observation 9 a.m.
Nearest Railway Station SPILSBY
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. – in.
" " " " Sea Level 160 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

Form 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

17 JAN 1924

2368

REGISTER OF RAINFALL IN 1923.

Kept at Stainby Rectory

in the County of Lincoln

by Rev. W. L. de B. Thorold.

Lat. ______ Long. ______

Time of Observation 9 a.m.

Nearest Railway Station South Witham

Diameter of Funnel of Rain Gauge 4 in.

Height of top of Gauge above Ground ___ ft. 9 in.

" " " " Sea Level 496 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to The Superintendent, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to The Superintendent, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

FORM 1090 **METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.**
(*formerly B.R.O. Form A.1*).

REGISTER OF RAINFALL IN 1921.

14 FEB 1922

Kept at Ling Moor Swinderby
in the County of Lincoln
by Cecil H Wray Esqr

Lat. .... Long. ....
Time of Observation 9 am
Nearest Railway Station Swinderby
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. .... in.
" " " " Sea Level .... ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

FORM 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1922.

Kept at Ling Moor. Swinderby

in the County of Lincoln

by Cecil H Wray

Lat. Long.

Time of Observation 9 a.m

Nearest Railway Station Swinderby

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. in.

" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

REGISTER 4

Kept at Elkington Hall Louth

in the County of Lincoln

by H Townend

Lat. 53 .. Long. 0

Time of Observation 9 am

Nearest Railway Station Louth 3 miles

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 1 ft. 4 in.

" " " " Sea Level 234 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, ~~S.W. 7.~~

QUERY FORM.

On examination of the return of observations made at Elkington Hall Louth 1925 the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.

The entries on your 1925 rainfall return for May 17-20 do not compare well with neighbouring stations.

A comparison with Louth (Westgate) is given below, and if you have no reason to the contrary we would recommend that the values set out in the end column should be adopted.

	Louth Westgate	Elkington Hall	Suggested values
May 17	·01	-	·02
" 18	·25	·02	·22
" 19	·65	·22	·65
" 20	·12	·14	·14

If you concur in these amendments the total for May becomes 2·86 inches and the year 20·23 inches.

We shall be glad of your comments on this point.

H. Carter
7·7·26

REPLY.

Dear Sir

Your letter re May 1925 Rainfall to hand. we are quite aware there is considerable difference at times between our Register & Louth, Louth is at foot of the wolds & nearer the sea & oftimes Rain Storms reach one & not the other to wit. at the Louth Flood we registered about 2 inches more rain than Louth

We shall however be quite willing to fall in with your suggestions, at the same time feeling sure they our returns accurately represent our rainfall

Yours faithfully
B G Stone

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

AIR MINISTRY.

FORM 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1922.

Kept at North Level House Tydd

in the County of Lincolnshire

by Stephen Foovargue

Lat. Long.

Time of Observation 9 a.m.

Nearest Railway Station Tydd

Diameter of Funnel of Rain Gauge 5 in.

Height of top of Gauge above Ground 3 ft. – in.

" " " " Sea Level ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should be entered on Form 1091.

A.M. Form 906.

AIR MINISTRY, METEOROLOGICAL OFFICE.

SOUTH KENSINGTON, LONDON, S.W. 7.

QUERY FORM.

On examination of the return of observations made at Wellingore 1925

the following queries arise by comparison of the readings with the charts, &c. The Director will be obliged if the book containing the original observations may be referred to and this paper returned, with the required information, as soon as possible.

QUERY.	REPLY.
A comparison of your 1925 rainfall return with those of neighbouring stations suggests that an omission has occurred on May 23 as shown below Cranwell ·74 inch Wellingore — Navenby ·83 If you have no reason to the contrary we would recommend that a value of ·80 inch be adopted making the total for the month 3·23 ins and the year 20·46 inches We shall be glad of your comments on this point. H. G. Carter 6.7.26.	Miss A. S. Morley regrets to say she sent the whole sheet Form 1090 to Meterological Office so has nothing to refer too, last years. but thinks if that rain fell at Navenby 1 mile away it would be the same at Wellingore sorry for mistake Adopt ·80. H.G. 8.7.26

N.B.—This paper should be folded so as to bring the printed address outside, and returned immediately. Sealing is unnecessary and defaces or causes a gap in the paper, which is to be filed in the Meteorological Office.

For use in M.O. 7.

1. The amendments indicated in red ink are adopted......................
2. Necessary corrections made in Monthly Return..........................
3. " " " " Weekly (Form 3110)..............

For use in M.O. 2.

4. Necessary corrections noted in Forecast Division ....

Form A. 1. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1921.

Kept at Woodhall Spa
in the County of Lincoln
by Jos Collins

Lat. — Long. —
Time of Observation 9 a.m
Nearest Railway Station Woodhall Spa
Diameter of Funnel of Rain Gauge 5 in.
Height of top of Gauge above Ground 1 ft. 6 in.
" " " " Sea Level 72 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in *"Rules for Rainfall Observers,"* sent post-free on application to The Superintendent, British Rainfall Organization, 62, Camden Square, London, N.W. 1.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

FORM 1090 METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.
(*formerly B.R.O. Form A.1*).

REGISTER OF RAINFALL IN 1921

Kept at Pumping Station Wroot
in the County of Lincolnshire
by F. S. Stafford

Lat. Long.
Time of Observation 9 A.M
Nearest Railway Station PARK DRAIN
Diameter of Funnel of Rain Gauge 10X10" in. SQUARE
Height of top of Gauge above Ground 4 ft. in.
" " " " Sea Level 12 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers,*" sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, 62, Camden Square, London, N.W. 1, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following.

Records taken in Millimetres should not be entered on this form.

AIR MINISTRY.

FORM 1090. METEOROLOGICAL OFFICE.—BRITISH RAINFALL ORGANIZATION.

REGISTER OF RAINFALL IN 1922.

Kept at Wroot Pumping Station.

in the County of Lincolnshire

by J. S. Trafford, Engineer

Lat. ______ Long. ______

Time of Observation 9 - 0 A.M

Nearest Railway Station Park Drain

Diameter of Funnel of Rain Gauge 10 in. Square

Height of top of Gauge above Ground 4 ft. ______ in.

" " " " Sea Level 12 ft.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m. (Greenwich Time) and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to THE SUPERINTENDENT, British Rainfall Organization, Meteorological Office, Air Ministry, Kingsway, London, W.C. 2, or to THE SUPERINTENDENT, Meteorological Office, 10, Rothesay Place, Edinburgh.

Jan. 1, following. ______

Records taken in Millimetres should be entered on Form 1091.
